**BKKR**  An Information Experience Design (iXD) company

**The filtered results page is the destination for ALL non-search related object reduction activity, and the display page for 'Browse all' function.**

**The page has two indenpendent states:**
Unfiltered
Filtered

With **Grid view** and **List view** options.

**Unfiltered state**
Objects with most recent first. This is the default view.

**Filtered state**
The state after any **Filter option** is selected.

**View type**
The view type can either be **Grid view** or **List view**.

**Grid view**
A grid of objects using the mechanics of Isotope.

**List view**
A list of objects, most recent first. (TD to produce design).

**Filter options**
The filter options are:

By category
By movement
By year
By origin
By location
By room
By tag

All attributes other than category are selectable from /artwork view (category from global nav).

**Design concept(s)**
Consider vertical right aligned timeline, similar to: http://rosemarybutcher.com/ with numeric indication of date range in view.

**Example grid view**
